

Create a business app with Apps Village

BUSINESSREPORT / 11 NOVEMBER 2018, 11:45AM / staff report

INTERNATIONAL - Create a branded app for your business is now only a click away with Apps Village.

You will be able to notify your clients of new products, send coupons, special discounts and much more.

The App gives you a direct tool to communicate directly to your customers and update them on hot sales or attractive coupons or any update you do in your business directly to their phones and increase your monthly revenues, what App Village says by more than 30%.

Here is a list of some of the App's main features:

- Send Push Notifications,
- Chat with your Customers,
- Post products for sale and sell on the app itself,
- Post coupons,
- Synchronize with your Facebook page posts,
- Schedule appointments with your customers,
- Give some Cash Back to your loyal customers so they will come back and buy more...

You can see here some of beautiful Apps that created by our customers and raised their revenues by 30% and more.
